Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to network but don't know what to say first. • How do I link AI cities to climate change? • Is this blockchain fact correct?	THINKS • Everyone else seems so confident. • I need a quick cheat sheet of icebreakers. • I hope I don't say something incorrect.
PERSONA NAME (Role / User Type) Anxious Event Attendee	
DOES • Stands near the food counter. • Browses phone to avoid eye contact. • Sticks only to people they know.	FEELS • Anxious about introducing self. • Intimidated by industry experts. • Eager to build valuable contacts.
