

Scalability & Future Plan

Date	15 March 2024
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Local GPT-2 model has lower prompt coherence		Medium
2	JSON file logs do not support concurrency		High
3			

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Local single user	Deploy Docker image to AWS ECS cluster
2	Data Storage	JSON logs files	Migrate database to PostgreSQL server
3	Performance	CPU in-memory load	Attach CUDA GPU instances for fast speed
4	Security		

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1 Phase 1	Integrate Google Gemini API	Month 2	Enhances conversational context
Phase 2 Phase 2	Support Google/Email login auth	Month 3	Enables personalized user profiles
Phase 4
