

Define Problem Statements

Team Members: Thrivedh Reddy (Lead), Bhagesh T., Harshavardhan R., Vijay R., Sampath K.

1. The Context

Attendees at conferences, social gatherings, and networking events frequently find it hard to start conversations with strangers or express their interests effectively.

2. The Problem Statement

How might we design a software tool that automatically extracts themes from event descriptions, crafts context-aware icebreakers matching user interests, and verifies topics via Wikipedia in real-time?
