

Project Executable Files

Team Members: Thrivedh Reddy (Lead), Bhagesh T., Harshavardhan R., Vijay R., Sampath K.

Installation & Run Steps

1. Create virtual environment: `python -m venv .venv`
2. Activate venv: `.venv\Scripts\activate.ps1` (on Windows)
3. Install dependencies: `pip install -r requirements.txt`
4. Launch backend: `uvicorn app.main:app`
5. Launch Streamlit UI: `streamlit run frontend/streamlit_app.py`
