Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Yes Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	PEP 8 compliant formatting Modular files tree under app/
2	Proper File Structure	Files and folders are logically organized	Yes	Descriptive variable naming
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Descriptive snake_case functions
4	Function / Method Names	Functions are descriptively named	Yes	Extensive module comments
5	Code Comments	Inline and block comments explain logic	Yes	Strict single responsibility modules
6	Modular Design	Code is split into reusable functions/modules	Yes	No dead code or unused blocks
7	No Redundant Code	Duplicate or unused code is removed		
8	Error Handling	Exceptions and errors are handled gracefully		

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1				

2				
3				
4				
5		5	Highly organized directories structure	
		5	Clean layout and type validations	

Overall Code Quality Assessment: Modular components easily re-imported

Aspect	Rating (1-5)	Comments
	5	Detailed docstrings document logic
Code Layout & Structure		
	5	Code meets excellent quality standard
