### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                        |                                                                                                                                                                                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>SAYS</b></p> <ul style="list-style-type: none"> <li>I want to network but don't know what to say first.</li> <li>How do I link AI cities to climate change?</li> <li>Is this blockchain fact correct?</li> </ul> | <p><b>THINKS</b></p> <ul style="list-style-type: none"> <li>Everyone else seems so confident.</li> <li>I need a quick cheat sheet of icebreakers.</li> <li>I hope I don't say something incorrect.</li> </ul> |
