Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or professional attending a networking event.	Start meaningful conversations and build valuable professional connections.	I often struggle to identify relevant topics and begin engaging conversations with new people.	Networking events require quick thinking, knowledge of the event theme, and confidence, making it difficult to prepare on the spot.	Nervous, less confident, and worried about missing valuable networking opportunities.
